Technology Teacher Professional Development

by Peter and Ruth Thompson

Learn the basics of working with veneers using both digital technologies (laser) and scroll saw techniques to create decorative marquetry pieces, with a wide range of timber veneers.

In this workshop participants will learn about commercial veneers and how to cut both straight and curved line repeating patterns to create interesting and beautiful effects.

An easy way for your students to add veneered patterns to their projects such as skateboards and serving trays. This course is open to all skill levels from absolute beginners to those with some experience.

Course cost includes all materials and a vacuum kit to take back to school.

Where:	Penrith Panthers
When:	Saturday June 1st
Time:	9:00 am to 4:00 pm
Cost:	\$475 (ex. GST)
Contact:	ruth@DontPanic.net.au

Completing the laser and scroll saw marquetry course will contribute 6 hours of NESA Registered PD addressing 3.3.2, 3.4.2, 5.1.2, 5.3.2, 6.2.2, 6.4.2 from the Australian Professional Standards for Teachers towards maintaining Proficient Teacher Accreditation in NSW.

Peter and Ruth Thompson have delivered professional development for the **fiatc** for over twenty years.
